# MADJER

---

The history of beach soccer and Madjer career walk along together. You can't talk about beach soccer without mentioning the name of Madjer.

Madjer is a legend of beach soccer, considered by France Football in 2019 as the biggest name in the history of sport.

The talent and titles won, would be enough for Madjer to carry the title of King of the Sands. But Madjer is much more than that. His character and the way of being in sport and in life makes him a role model for all future generations in beach soccer.

# TEAM SKILLS CONTEST

Players will have the opportunity to represent their team and country by competing in group skill contests in juggling and shooting as follows:

- **Team Juggling:** 5 players from each team form a circle in the middle of the field and receive 3 chances to juggle as many times as they can. Each player has a maximum of two touches between passes to each other. Ball can only be touched with feet, thigh, shoulder, head, and chest only. The team with the highest amount of successfully completed passes to one another in any given attempt (without the ball touching the ground) is the winner.
- **Team Shooting:** 5 shooters from each team will shoot to targets placed on the goal. Each shooter from each team gets three shots to make it through the target. The team with the highest amount of successful shots wins.
- **Juggling Relay Course:** 5 players are stationed at various locations on a relay course and player one begins by passing to player two and player two passes to player three, etc. until the ball has completely moved around the course.
